INFORMATION ON THE COMPANY

BlueStar Entertainment Technologies, Inc. ("BlueStar") was organized as Solarte Hotel Corporation in May 2008 to purchase real estate in the archipelago of Boca Del Toro, Panama and to develop a luxury eco-lodge hotel on the property. We registered shares of common stock on Form F-1 in December 2008 to fund this project, but due to the state of the capital markets at the end of 2008 and in 2009 the offering was unsuccessful. In the year ended June 30, 2009 the Company abandoned this business plan and embarked on a new plan to market incorporation services in Panama and other offshore jurisdictions, as a form of estate planning or asset protection for its clients. We do not market our services for the avoidance of any taxes.

As of June 30, 2011, there were approximately 65 common shareholders of record.

ITEM 4A. UNRESOLVED STAFF COMMENTS

Not applicable since the registrant is a small business issuer.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of Securities Exchange Act of 1934. Actual results could differ materially from those projected in the forward-looking statements as a result of the risks, which the Company cannot foresee. Such risks include, but are not limited to an economic turndown, changes in government policies, financial difficulty with or loss of a major customer or interruption in supplies.

Year ended June 30, 2011 compared to year ended June 30, 2010

Our general administrative expenses decreased in 2011 by ten percent. This reduction is attributable to lower wages in the current year compared to wages in the prior year.

Analysis of Financial Position, Liquidity and Capital Resources

Our expenses for general and administrative activities include approximately \$1,600 per month for management compensation. Also included in the year's general and administrative activities are professional fees of \$4,500 and filing fees totaling \$2,099. (The filing fees relate to the Company's Panama incorporation business.) These expenses have been entirely funded by loans from two related parties.

Off Balance Sheet Arrangements.

The Company has no off balance sheet arrangements.

Inflation

The Company is not subject at this time to the effects of inflation.

Disclosure Controls and Procedures.

We maintain disclosure controls and procedures, which are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within time periods specified in the Securities and Exchange Commission's rules and forms and such information is accumulated and communicated to our management, including our chief executive officer, or CEO who is also our chief financial officer and CFO, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of the Company's management, including our CEO who is also our CFO, an evaluation was performed on the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this annual report. Based on that evaluation, our management, including our CEO who is also our CFO, concluded that our disclosure controls and procedures were effective as of June 30, 2011.

An evaluation was also performed under the supervision and with the participation of our management, including our CEO who is also our CFO, of any change in our internal controls over financial reporting that occurred during our last fiscal quarter and that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting. The evaluation did not identify any change in our internal controls over financial reporting that occurred during our latest fiscal quarter and that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as this term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of our management, including our CEO/CFO, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. ITEM 18. FINANCIAL STATEMENTS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Officers and Directors
BlueStar Entertainment Technologies, Inc.

We have audited the accompanying balance sheet of BlueStar Entertainment Technologies, Inc. (formerly Solarte Hotel Corporation) as of June 30, 2011 and 2010, and the related statements of operations, changes in stockholders' equity (deficit), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of BlueStar Entertainment Technologies, Inc. as of June 30, 2011 and 2010, and the results of its operations, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements referred to above have been prepared assuming the Company will continue as a going concern. As discussed in Note 6 to the financial statements, the Company has recurring losses and has not generated revenues from its planned principal operations. These factors raise substantial doubt that the Company will be able to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies of Bluestar Entertainment Technologies, Inc. (the Company) is presented to assist in understanding the Company's financial statements. The accounting policies presented in these footnotes conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the accompanying financial statements. These financial statements and notes are representations of the Company's management who are responsible for their integrity and objectivity.

Organization, Nature of Business and Trade Name

Bluestar Entertainment Technologies, Inc. (the "Company") was organized under the Business Companies Act of 2004 of the British Virgin Islands on May 28, 2008. The Company had contracted to purchase real estate in Panama on which it intended to develop a hotel. This business was abandoned and is accounted for as discontinued operations. During the year ended June 30, 2011, the Company offered incorporation services in Panama and other offshore jurisdictions. The Company did not realize significant revenues from its planned principal business purpose and is considered to be in its development stage in accordance with ASC 915, "Development Stage Entities", formerly known as SFAS 7, "*Accounting and Reporting by Development Stage Enterprises*." The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors. In December 2011, the Company changed its name from Solarte Hotel Corporation to Bluestar Entertainment Technologies, Inc.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Fiscal Year - The Company's fiscal year-end is June 30.

Cash and Cash Equivalents - The Company considers all highly liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

Advertising Costs - Advertising costs are charged to operations when incurred. The Company has not yet incurred any advertising costs.

Organization Costs - Organization costs, which reflect amounts expended as of June 30, 2008, were expensed as incurred. There were no organization costs incurred in 2010 or 2011.

Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses

during the reported period. The current economic environment has increased the degree of uncertainty inherent in these estimates and assumptions. Actual results could differ from those estimated.

Offering Costs – Costs of issuing stock are deducted from the proceeds of the issue. For the periods ended June 30, 2010 and 2011, there were no offering costs.

Land – Acquisition costs for the property are capitalized as incurred. If the property acquisition does not close, they will be expensed.

Accounts Receivable - Accounts receivable are presented net of doubtful accounts. As of the periods presented there were no accounts receivable.

Deposits - Deposits consist of customer deposits for incorporation fees which have not been applied. As of June 30, 2011 and 2010 there were no deposits.

Discontinued Operations - Discontinued Operations include the write off of acquisition costs related to the proposed hotel project which was abandoned when the Company was unable to fund the purchase price.

Income tax - We are not subject to income taxes in the U.S. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. In accordance with FASB ASC Topic 740, “*Income Taxes*,” we provide for the recognition of deferred tax assets if realization of such assets is more likely than not. See Note 4.

Non-Cash Equity Transactions - Shares of equity instruments issued for non-cash consideration are recorded at the fair value of the consideration received based on the market value of services to be rendered, or at the value of the stock given, considered in reference to contemporaneous cash sale of stock.

Fair Value Measurements - Effective beginning second quarter 2010, the FASB ASC Topic 825, *Financial Instruments*, requires disclosures about fair value of financial instruments in quarterly reports as well as in annual reports. For the Company, this statement applies to certain investments and long-term debt. Also, the FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Company’s investments and long-term debt. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below.

- Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets.

BLUESTAR ENTERTAINMENT TECHNOLOGIES, INC.
(Formerly Solarte Hotel Corporation)
(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [Continued]

- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.).
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The Company's adoption of FASB ASC Topic 825 did not have a material impact on the Company's consolidated financial statements.

The carrying value of financial assets and liabilities recorded at fair value is measured on a recurring or nonrecurring basis. Financial assets and liabilities measured on a non-recurring basis are those that are adjusted to fair value when a significant event occurs. The Company had no financial assets or liabilities carried and measured on a nonrecurring basis during the reporting periods. Financial assets and liabilities measured on a recurring basis are those that are adjusted to fair value each time a financial statement is prepared. The Company's had no financial assets and/or liabilities carried at fair value on a recurring basis at June 30, 2011 or 2010.

The availability of inputs observable in the market varies from instrument to instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the market and may require management judgment. As of June 30, 2011 and 2010, the Company had no assets.

Basic and diluted earnings per share

Basic earnings per share are based on the weighted-average number of shares of common stock outstanding. Diluted Earnings per share is based on the weighted-average number of shares of common stock outstanding adjusted for the effects of common stock that may be issued as a result of the following types of potentially dilutive instruments:

- Warrants,
- Employee stock options, and
- Other equity awards, which include long-term incentive awards.

The FASB ASC Topic 260, *Earnings Per Share*, requires the Company to include additional shares in the computation of earnings per share, assuming dilution.

Diluted earnings per share is based on the assumption that all dilutive options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options are

assumed to be exercised at the time of issuance, and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Basic and diluted earnings per share are the same as there was no dilutive effect of any stock options for the years ended June 30, 2011 and 2010.

Concentrations, Risks, and Uncertainties - The Company did not have a concentration of business with suppliers or customers constituting greater than 10% of the Company's gross sales during 2011 and 2010.

NOTE 2 - RECENTLY ENACTED ACCOUNTING STANDARDS

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-6, "Improving Disclosures about Fair Value Measurements." This update requires additional disclosure within the roll forward of activity for assets and liabilities measured at fair value on a recurring basis, including transfers of assets and liabilities between Level 1 and Level 2 of the fair value hierarchy and the separate presentation of purchases, sales, issuances and settlements of assets and liabilities within Level 3 of the fair value hierarchy. In addition, the update requires enhanced disclosures of the valuation techniques and inputs used in the fair value measurements within Levels 2 and 3.

The new disclosure requirements are effective for interim and annual periods beginning after December 15, 2009, except for the disclosure of purchases, sales, issuances and settlements of Level 3 measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. As ASU 2010-6 only requires enhanced disclosures, the company does not expect that the adoption of this update will have a material effect on its financial statements.

Subsequent Events - In May 2010, the FASB issued accounting guidance now codified as FASB ASC Topic 855, *Subsequent Events*, " which establishes general standards of accounting for, and disclosures of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. FASB ASC Topic 855 is effective for interim or fiscal periods ending after June 15, 2010. Accordingly, the Company adopted the provisions of FASB ASC Topic 855 on July 9, 2010. The Company has evaluated subsequent events for the period from July 1, 2011 to the date of these financial statements. Pursuant to the requirements of FASB ASC Topic 855, subsequent events are disclosed in Note 8.

Stock Based Compensation - For purposes of determining the variables used in the calculation of stock compensation expense under the provisions of FASB ASC Topic 505, "Equity" and FASB ASC Topic 718, "Compensation — Stock Compensation," we perform an analysis of current market data and historical company data to calculate an estimate of implied volatility, the expected term of the option and the expected forfeiture rate. With the exception of the expected forfeiture rate, which is not an input, we use these estimates as variables in the Black-Scholes option pricing model. Depending upon the number of stock options granted, any fluctuations in these calculations could have a material effect on the future results. In addition, any differences between estimated forfeitures and actual forfeitures could also have a material impact on our financial statements in the future. The Company has not issued any stock based compensation through June 30, 2011, but may do so in the future.

NOTE 3 – CAPITAL STOCK

Common Stock - The Company has authorized an unlimited number of shares of no par value common stock and preferred stock. In May 2008, in connection with its organization, the Company issued 3,000,000 shares of their previously authorized but unissued common stock to one person for \$10,000 cash. An additional 100,000 shares were issued to one purchaser for \$20,000 on June 30, 2008.

On June 12, 2011, our board of directors approved a 5-for-1 forward split of our common shares. As a result of the forward split, total outstanding common shares were increased from 3,100,000 to 15,500,000 shares. Each holder of one common share received an additional certificate for four shares. All references to common shares in the financial statements and accompanying notes to the financial statements have been retroactively restated to reflect the changes in capital structure resulting from the forward split.

NOTE 4 - RELATED PARTY TRANSACTIONS

The related party payable balance of \$53,252 consists of amounts owing for executive compensation and loans as follows:

\$27,128	Owed to and officer/shareholder as of June 30, 2010
\$19,225	Board-approved compensation for an executive of the Company during the year ended June 30, 2011
\$6,899	Cost of sales and audit fees paid on behalf of the Company by a related parties during the year ended June 30, 2011

The amounts are non-interest bearing and due on demand. No amounts have been repaid during the year ended June 30, 2011.

NOTE 5 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company was only recently formed and has not yet been successful in establishing profitable operations. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through additional sales of their common stock. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 6 - LOSS PER SHARE

The following data shows the amounts used in computing loss per share:

	Year ended June 30, 2011	Year ended June 30, 2010
Loss from operations available to common shareholders (numerator)	\$ (27,079)	\$ (30,085)
Weighted average number of common shares outstanding used in loss per share for the period (denominator)	15,500,000	15,500,000

Dilutive loss per share was not presented, as the Company had no common stock equivalent shares for all periods presented that would affect the computation of diluted loss per share.

NOTE 8 - SUBSEQUENT EVENT
